The Science of Beautiful Skin

The AminoGenesis® Philosophy For Flawless Skin

As you discover the AminoGenesis® line of products it's important to understand what makes them so unique and effective. We take great care in creating some of the most advanced skin care products in the industry. Our philosophy is simple... Give the skin what it needs to be healthy, radiant and flawless. To accomplish this there are 3 main objectives each of our products strive to achieve:

Hydrate

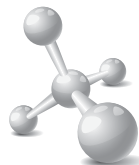

No matter what your skin type, keeping the skin hydrated is the single most important aspect to maintaining beautiful, radiant and youthful looking skin.

Typical skin care moisturizers work by covering or sealing the skin to help prevent moisture loss. While these types of products may give the skin a temporary, nicer appearance, they do nothing to directly hydrate the skin. However, these oily products can clog pores, block the release of toxins and prevent the skin from breathing, actually helping to age the skin.

Moisture Loss:

Amino acids are the main component of the skin's Natural Moisturizing Factor. AminoGenesis® skin care products ensure the highest level of moisture binding compounds to keep the skin looking healthy and hydrated all day long.

Nourish

Amino acids are the basic building blocks of all proteins that make up your skin such as collagen and elastin. These basic, naturally occurring, building blocks can help your skin to have a more radiant, healthy and youthful looking appearance.

Each amino acid in AminoGenesis® is derived from plant sources and is painstakingly purified. These amino acids are then carefully blended to match the optimum amino acid composition in collagen. By utilizing the unique delivery system in AminoGenesis®, the skin now has available the amino acids necessary to beautify and repair itself on a daily basis. No other skin care formulation can approach this level of perfection!

Defend

Free Radical Defense:

Free radicals are unbalanced molecules caused by the sun, environment and pollution. These unbalanced molecules cause damage to important cellular tissues including DNA structures. Amino acids are natural free radical scavengers that seek out and neutralize free radicals to help prevent cellular damage. **Preventhelia™** is an exciting new peptide capable of neutralizing both oxidative and carbon free radicals to give you a new, powerful weapon to fight the signs of aging.

Sun and Environmental Stressors:

The AminoGenesis® formula helps protect against the many factors that age the skin. Sun, wind, pollution, bacteria and environmental stressors can all take a toll on your appearance. Use AminoGenesis® for the ultimate protection against the harsh environment around you!

the science

Amino Acids

The building blocks of all living tissue

The amazing story of amino acids. Nature's skin care superstars!

While most of us have heard about amino acids, few really understand the role they play not only in the health and beauty of your skin, but the essential role they play in life itself.

All life on planet Earth is made of just a few of these life supporting nutrients. Every single living plant and animal share these same building blocks, and the only difference between you, me, the birds in the air and the plants on the ground is how nature arranges them to make life as we know it.

With that in mind, it's no wonder that amino acids are the very nutrients that make your skin beautiful. Every part of your skin is made of various combinations of different amino acids.

Conversely, when the skin becomes depleted of amino acids, the skin cannot perform its daily routine of repair. This leads to the skin beginning to have an aged, worn out and dry appearance. Without enough amino acids the skin loses its elasticity, sags, discolors, wrinkles and the radiant appearance of your youth is lost.

The sun, the weather, the environment and the normal aging process all can lead to the skin becoming depleted of amino acids. However you can fight back! By bathing your skin every day in these wonderful life giving nutrients, your skin can look more radiant, youthful and beautiful with every use!

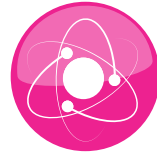

AminoGenesis® is the world leader in the use of amino acids in skin care products. No other skin care product provides the full spectrum of essential amino acids necessary for healthy, beautiful skin like AminoGenesis®.

Amino acids are the key to the most beautiful, flawless looking skin possible and they will never go out of style!

the science

Preventhelia™

A new, powerful patented anti-aging weapon!

The anti-aging benefits of antioxidants have long been known. Antioxidants neutralize free radicals which are unbalanced molecules that cause damage to cellular tissues and DNA. However, antioxidants can only neutralize oxidative free radicals. There are also carbon based free radicals that go unchecked by traditional antioxidants. Carbon free radicals can cause just as much damage to your skin in causing the signs of aging. Preventhelia™ is an exciting new peptide capable of neutralizing both oxidative and carbon free radicals to give you a new, powerful weapon to fight the signs of aging.

We at AminoGenesis® go through great effort to bring you the latest and most scientifically effective products. We are positive you will enjoy the newly formulated AminoGenesis® products with Preventhelia™!

- Ultimate new protector in the fight to help prevent the visible signs of aging
- Helps neutralize oxidative free radicals
- Only known peptide to also help neutralize carbon free radicals
- Helps protect the skin against the abuse of the elements
- Helps maintain skin elasticity

therapeutic facial repair™

Anti-Aging
Moisturizing Crème
(Hydratant pour le visage)
1.7 fl. oz. (50 ml)

The most concentrated version of the AminoGenesis® formula. Three times the concentration of amino acids gives you moisturizing and nourishing power not available in any other formula in the world.

Instead of simply covering and sealing the skin like a typical moisturizer, Therapeutic Facial Repair™ absorbs rapidly to directly hydrate and nourish the skin with 17 different amino acids. Nine of these are known as essential, meaning the body cannot produce them and must be acquired from outside the body.

Therapeutic Facial Repair™ is now enhanced with Preventhelia™, a patented new peptide that helps protect your skin from both oxidative and carbon free radical damage. It also helps protect key skin proteins from premature breakdown, helping to reduce the visible signs of aging.

This breakthrough in peptide technology helps enhance and protect your skin from everyday stressors that age the appearance of your skin.

ParanormalEFX®

Anti-Aging Serum

Serum Intense pour le visage

1.7 fl. oz. (50 ml)

ParanormalEFX® with Regeneplex 4 is a powerful new secret for more gorgeous skin. This revolutionary cosmetic serum is the first ever to combine the anti-aging powers of these very unique and scientifically advanced ingredients that work together to fight the many signs of aging.

The highly concentrated formulation utilizes 4 brand new, extremely effective ingredients. In addition ParanormalEFX® contains the specific 17 amino acids that are the building blocks of important skin proteins like collagen and elastin. Lastly, to maximize the effectiveness of ParanormalEFX® it contains Vitamins A, E and D.

ParanormalEFX® with the breakthrough compound Regeneplex 4 contains these proven age defying ingredients:

GPA-3 Guanidinopropionic Acid: GPA-3 has been shown to support cellular turnover, promote circulation and has a stress relieving effect on the skin. Calming effects of this ingredient can reduce skin tension and help release the appearance of wrinkles caused by frowning and facial tension.

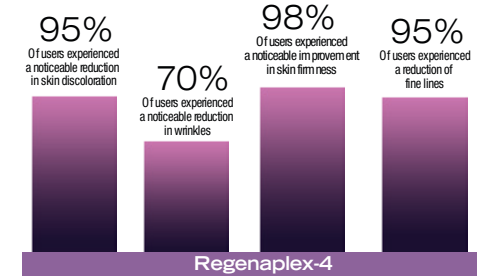

Preventhelia™: Is a peptide and unusual free radical scavenger that quenches reactive carbonyl species (RCS). Promotes smoother skin, helps protect skin cells from the aging process. Also helps protect skin from photoaging.

Tremella Mushroom Extract: Clinically shown to have 5 times the water holding capabilities of Hyaluronic Acid, which means 5 times more moisture for your skin. Chinese princess Yang Gui Fei, considered the most beautiful woman in Chinese history, famously used the Tremella Mushroom to preserve her beauty.

PA Reviviscence (Resurrection Plant Extract): Certain plants are able to thrive under the most drastic conditions due to their content of components called ‘survival fraction’. PA Reviviscence is an extract from the Resurrection plant, rich in antioxidants and moisturizing capabilities. Clinically shown to increase moisture, soften and protect drying skin by 21%. Helps protect from Osmotic Stress (water loss in cells), as well as moisturizing activity in extreme climates and temperatures.

After years of research and development, here are the amazing results.

Customer perception studies conducted on the ParanormalEFX formula showed that 95% noticed a reduction in fine lines as well as skin discoloration after 6 weeks of use. 90% saw smoother and softer skin along with improved radiance and tone.

ParanormalEFX® Ingredients: Purified Water, Ethylhexyl Palmitate, Glycerin, Amidino Beta-Alanine, Hydrolyzed Tremella Funiciformis Sporocarp Extract, Selaginella Lepidophylla Extract, Retinyl Palmitate, Cholesterol, Diaminopropionyl Tripeptide-33, Tocopheryl Acetate, L-Lysine HCl, L-Histidine HCl, L-Arginine HCl, L-Aspartic Acid, L-Threonine, L-Serine, L-Glutamine, L-Proline, L-Glycine, L-Alanine, L-Valine, L-Methionine, L-Isoleucine, L-Leucine, L-Tyrosine, L-Phenylalanine, L-Acetyl Tyrosine, Hexylene Glycol, Caprylyl Glycol, Ethylhexylglycerin, Sodium Citrate, PEG40 Hydrogenated Castor Oil, Carbomer, Phenoxyethanol, Triethanolamine, Disodium EDTA, Fragrance, Blue 1 and Red 33.

photolagen-AGF™

Intensive Serum for Sun and Environmentally Damaged Skin

(Serum Intense pour le visage)

2 fl. oz. (60 ml)

Nothing can prematurely age your skin faster than the sun. It can dry out the skin's protective barrier known as the stratum corneum, depleting it of vital nutrients essential for youthful looking skin. Sun damage is characterized by dry patches, discoloration spots, deep furrowed wrinkles and an overall weathered appearance.

Sun damaged skin needs intensive care. That's why Photolagen-AGF™ was created. AminoGenesis® has combined its 17 amino acid based formula with sun damage fighting compounds known as amino peptides. Peptides are short chains of pre-assembled amino acids still small enough to absorb into the surface of the skin. These peptides communicate with the fibroblast cells in your skin. Which, in turn, helps address the damage caused by the sun.

The new patented peptide in Photolagen-AGF™ has been shown to be very effective at helping to improve the appearance of dark spots, dryness and deep wrinkles associated with sun damage.

Photolagen-AGF™ is now enhanced with Preventhelia™ a patented new peptide that helps protect your skin from both oxidative and carbon free radical damage. It also helps protect key skin proteins from premature breakdown, helping to reduce the visible signs of aging.

This breakthrough in peptide technology helps enhance and protect your skin from everyday stressors that age the appearance of your skin.

- **Ultimate new protector in the fight to help prevent the visible signs of aging**
 - **Helps neutralize oxidative free radicals**
 - **Only known peptide to also help neutralize carbon free radicals**
- **Helps protect the skin against the abuse of the elements**
 - **Helps maintain the skins elasticity**

Photolagen™ Ingredients: Purified Water, Glycerin, C12-15 Alkyl Benzoate, Isopropyl Palmitate, Palmitoyl Pentapeptide-4, Xanthan Gum, Diaminopropionoyl Tripeptide-33, L-Lysine HCl, L-Histidine HCl, L-Arginine HCl, L-Aspartic Acid, L-Threonine, L-Serine, L-Glutamine, L-Proline, L-Glycine, L-Alanine, L-Valine, L-Methionine, L-Isoleucine, L-Leucine, L-Tyrosine, L-Phenylalanine, L-Acetyl Tyrosine, Hexylene Glycol, Caprylyl Glycol, Ethylhexylglycerin, Sodium Citrate, Polysorbate 20, C13-14 Isoparaffin, Butylene Glycol, PEG40 Hydrogenated Castor Oil, Laureth-7, Carbomer, Phenoxyethanol, Disodium EDTA, Polyacrylamide and Fragrance.

QuadraFill™

Targeted Deep Wrinkle Filler

.35 fl. oz. (10 ml)

Introducing QuadraFill™, the most powerful, targeted wrinkle filler available today!

Wrinkle fillers have become all the rage in the beauty industry for their ability to target specific areas of concern for maximum results. Most wrinkle fillers typically only have one or two “key ingredients”. AminoGenesis® spared no expense in the creation of Quadrafill™. With four patented peptides and two new wrinkle fighting ingredients Quadrafill™ is the most effective wrinkle filling option available.

The patented peptides in Quadrafill™ are:

SYN-TACKS™ - This peptide helps improve the appearance of your skin's elasticity and firmness.

SYN-COLL™ - The ultimate “boost and protect” peptide. This peptide helps protect collagen from premature breakdown, giving your skin a more wrinkle free, smoother appearance.

SYN-HYCAN™ - This peptide helps “remodel” and firm the appearance of the skin.

SYN-AKE™ - This peptide helps de-stress the look of your skin. No frozen face! Laugh, smile and look more relaxed and youthful all day long!

Plus 2 other amazing wrinkle fighters:

TENSUP™ - A powerful natural ingredient that gives you an amazing lifting and firming effect in as little as 5 minutes! Apply now and you will look younger and more refreshed in minutes!

NOLINE™ - Does exactly what the name implies! Fills in and decreases the appearance of fine lines and wrinkles.

Directions for use: For topical use only. Twist plunger slightly counter clockwise to open dispensing valve. Pump a small amount of QuadraFill™ to targeted areas on the face, neck and forehead twice daily. Gently massage product in a circular motion until completely absorbed. Check ingredient list for known allergies. If irritation occurs discontinue use. If irritation persists consult physician.

QuadraFill™ Ingredients: DI Water (EAU), Dimethicone, Cyclopentasiloxane, Polysilicone-11, Cichorium Intybus (Chicory) Root , Nylon-12, Hydroxyethyl Acrylate/Sodium Acryloyldimethyl Taurate Copolymer, Silica, Glycerin, Dipeptide Diaminobutyryl Benzylamide Diacetate, Tetradecyl Aminobutyrylvalylaminobutyric Urea Trifluoroacetate, Peg-10 Dimethicone, Isohexadecane, Propylene Glycol, Macelignan, Palmitoyl Tripeptide-5, Palmitoyl Dipeptide-5 Diaminobutyryl Hydroxythreonine, Polysorbate 40, Magnesium Chloride, Helianthus Annuus (Sunflower) Seed Oil, Tocopheryl Acetate, Ammonium Polyacryloyldimethyl Taurate, Phenoxyethanol (and) Ethylhexylglycerin, Disodium EDTA.

spot light™

Skin Brightener and Corrector

Soin Anti-taches Et Éclaircissant Pour La Peau

1 fl. oz. (30 ml)

This miraculous formula contains the latest skin brightening ingredients that are proven to visibly reduce the appearance of dark spots and skin discoloration.

It helps even and brighten skin tone to reveal a more uniform complexion. This revolutionary formula features a proprietary complex, comprised of a unique blend of skin brighteners that work at multiple levels to address the appearance of dark spots and uneven skin tone. Spot Light™ delivers dramatic results and is suitable for those with common skin sensitivities.

Enhanced with the latest skin tone perfecting ingredients **Gigawhite™**, **Melavoid™** and **Apple-ECO™**.

Gigawhite™

A skin brightening complex of botanical origin. Developed from alpine plants, Gigawhite™ has been shown to visibly brighten and even skin tone.

Melavoid™

Obtained from the roots of Boerhaavia Diffusa. It concentrates on helping to improve the appearance of skin color irregularities resulting in a more even and uniform complexion.

Apple-ECO™

Naturally occurring apple extracts have been incorporated into the Spot Light™ formula. These natural extracts have powerful anti-aging benefits. They hydrate the skin as effectively as hyaluronic acid while providing antioxidant benefits to the skin. Apple-ECO also conditions the skin and provides gentle, non-irritating exfoliation.

MARULA™

All-In-One Premium Facial Oil
(Huile pour le visage haut de gamme tout-en-un)
.5 fl. oz. (15 ml)

Marula oil is highly effective for advanced protection against ecological stressors that can lead to fine lines, wrinkles and other signs of premature aging.

It has a higher level of omega 9 fatty acids and antioxidants than argan or grape seed oil. Marula oil is ideal for all skin types.

Specially formulated for the face and neck, Marula premium facial oil is a naturally soothing treatment that helps reduce the appearance of fine lines and wrinkles for softer, more radiant looking skin.

Suitable for all skin types, AminoGenesis® Marula oil contains a high content of fatty acids, resulting in fast absorption leaving the skin with a smooth, matte finish.

Marula oil can be used alone as a highly effective anti-aging moisturizer or added to other facial products to boost their effectiveness and rejuvenate your appearance.

The AminoGenesis® Marula oil proprietary blend provides for an alluring and captivating sensory experience while helping to beautify the appearance of your skin.

Directions: For use morning and night. Massage two or three drops of oil into your face, neck and décolleté. You can use it as a stand-alone moisturizer or layer it under a facial moisturizer. For external use only. Review ingredients for known allergies. Avoid contact with eyes. For best results use with other AminoGenesis® products.

- Benefits:**
- Absorbs quickly
 - Superior hydration
 - Antioxidant protection
 - Leaves skin silky and soft
 - Revitalizes skin appearance
 - Leaves skin radiant & smooth

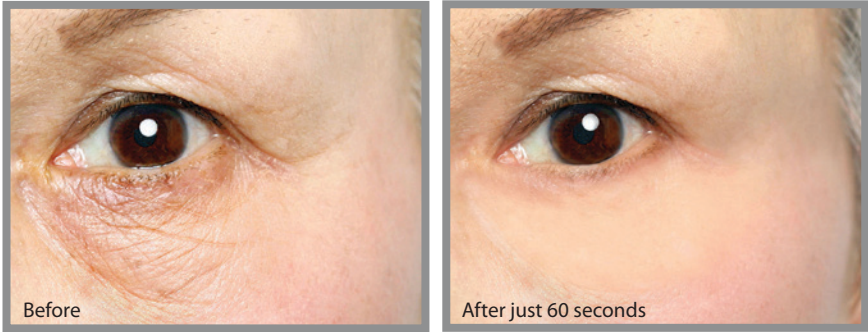

Marula Oil Ingredient List: Sclerocarya Birrea Seed Oil, Oleic Acid, Linoleic Acid, Stearic Acid, Palmitic Acid.
